Precision 88

P88 DIETARY ANTIGEN TEST

THE PROCESS

- The **blood draw** must be collected on **Monday or Tuesday MORNING** prior to 10am
 - We strongly encourage patients to collect their sample on a Monday. This provides a buffer of 1 day should there be any issue with courier pick up.
- Serum sample must be sent by Tuesday.
- The blood sample must be collected by Melbourne Pathology.  MELBOURNE PATHOLOGY

[Click here to find a Melbourne Pathology collection centre](#)

- **Take the entire kit box with you to the collection centre**, including your frozen ice pack.
- Before you can return home with your sample, it must be spun in a centrifuge. The total process may take up (or possibly over) an hour.
- Please **disregard the instructions for booking a courier** and follow the instructions below.
 - Once you have completed your blood test, notify your health coach via text. Your health coach will arrange your courier.
 - The courier pick up window is usually before 5pm that day. Someone must be present for collection.
 - Take sample directly home and keep in fridge until courier collects

4 Weeks before the test stop taking:

Immunosuppressive drugs **(including topical steroids)**

Continue:

Your usual eating habits, including a variety of food when possible
This is not a fasting test

READ THE INSTRUCTIONS INCLUDED IN THE TEST KIT BEFORE COMPLETING TEST

Ensure sample is collected correctly.
The lab charges a \$50 retesting fee for incorrect samples
